

Who We Are:

Military Partners and Families Coalition (MPFC) provides support, resources, education and advocacy for lesbian, gay, bisexual and transgender military partners and their families.

Our Actions:

We seek to support and empower LGBT partners and families of United States Armed Forces servicemembers. We believe that a well-cared for military family leads to a more effective servicemember.

- Social Support – Provide both human connections and virtual networking opportunities for LGBT military partners and families in partnership with local, regional, and national coalitions.
- Family Readiness and Support – Create a support system for the families of deployed/returning LGBT servicemembers and surviving partners of LGBT servicemembers.
- Information Resource – Serve as a source for information and education about issues and policies relevant to LGBT military partners and families.
- Policy and Media Outreach – Advocate for fair and equal treatment, benefits and opportunities for all LGBT military partners and families.
- Referrals – Assist with legal and other referrals for LGBT military partners and their families.

Find Us On the Web:

We welcome all interested military partners, families, allies and organizations to join our movement.
